

PSEO
COALITION

Iowa Department of Education Community College Employment Outcomes

This project was funded by a grant from the Postsecondary Employment Outcomes (PSEO) Coalition, made possible with support from Strada Education Foundation. The [PSEO Coalition](#) generates, analyzes, and shares employment data that demonstrates the value of higher education. The data are publicly available through a [dashboard](#) and [downloadable dataset](#) on the U.S. Census Bureau's website.

Iowa Department of Education Community College Employment Outcomes

The Iowa Department of Education used PSEO data to further develop the existing Iowa Department of Education employment outcomes research on cohorts of community college students. PSEO data were used to benchmark and compare Iowa student outcomes to other states. PSEO data combined with data from other sources were used to adjust data for regional comparability.

The dashboard is available here:

https://iowastudentoutcomes.com/credit_program_outcomes

To access the PSEO data, navigate to the PSEO menu on the top of the set. Users can view/download the Summary and full data tables by clicking on corresponding buttons on the bottom of the viz. Additionally, any customized configuration in this viz can be downloaded as a front and back "one pager" in a PDF format and printed as such if desired, to present a standard letter-sized document under the principle of "what you see is what you get". Instructional video is available by clicking on View How to Download PDF button.
